DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: on page 1, [0001] and page 2, [0007], the description references specific claims which may change over the course of prosecution or be renumbered or deleted altogether. This language is inappropriate for the specification and should perhaps be modified. Appropriate correction is required.

Claim Objections

2. Claims 2 and 6-7 are objected to because of the following informalities:
3. In claim 2, on line 3, "element(s)" is inappropriate language for the claims since it is unclear what the applicant intends to recite. Perhaps "at least one drive element" should be used instead.
4. In claim 6, line 3, "the drive element" should perhaps be "the at least one drive element".
5. In claim 7, line 3, "connections (16)" is incorrect since the reference numeral in the specification and also on line 2 refer to number "16" as a pump.
6. Appropriate correction is required.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

9. Claim 1 recites the following limitations: "its closed position" in line 2, "the opened roof" in lines 2-3, and "the auto body" in lines 3 and 6. There is insufficient antecedent basis for these limitations in the claim.

10. Claim 2 recites the limitations "the auto body" in lines 2-3 and "the drive element(s)" in line 3. There is insufficient antecedent basis for these limitations in the claim.

11. Claim 2 recites the limitation "the auto body" in line 4. There is insufficient antecedent basis for this limitation in the claim.

12. Claim 7 recites the limitation "it" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

13. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

14. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

15. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hilary Gutman whose telephone number is 571-272-6662.
